

Homework #11
 ($\Rightarrow 0 \Leftarrow$ points)

“Due Date:” In Section on March 6th or 7th, 2008

Name: _____ Section Leader: _____

Directions: This collection of problems will be neither collected nor graded. We offer them for you to work in anticipation of the final exam. We’d love to assign a normal, graded homework, but there’s not enough time to assign, collect, grade, and return a homework before the final. Instead, we **strongly** suggest that you attempt these problems prior to your last section meeting, and that you attempt them **before** you look at the answers in the back of the book. Your section leader will review these with you in section prior to the exam.

(Then solve it!)

*If your score is below 0 of the 0 points, to earn an additional zero points you may arrange a time to present an interpretive dance to your section leader. The dance must not violate local standards of decency. If your score is 0 or better, you’ll get those zero points automatically. ©
