

QUIZ!

Use a full sheet of 8½x11" paper. (Half sheet? Half credit!)

Put only your last name in the far upper left hand corner of the paper, where a staple would hit it. (It's OK to write **BIG**, just start in the corner!)

Mitchell

AVOID A ½-POINT DEDUCTION!

Keep answers short! Avoid full sentences. Feel free to abbreviate.

6 questions plus one EC; 3 minutes; 3 points.

Numbering responses may help you avoid overlooking a question. You may go ahead and number your paper.

Can everybody see this line?

Quiz 1, August 26, 2015

3 minutes; 3 points

1. In year did Ken Thompson start writing the operating system that came to be known as UNIX?
2. UNIX was originally written in assembly but it was later rewritten in what language?
3. What's a basic capability that's common to all shells?
4. Consider the following command line and fill in the blank.

```
% fgrep out x.java
```

out and **x.java** are _____s for the **fgrep** command.
5. What does purple text on a slide mean?
6. Ideally, what percentage of the class will earn "A"s?

EC ½ point: What was the too-slow OS that led to "Unics"?

Solutions

1. *In year did Ken Thompson start writing the operating system that came to be known as UNIX? **1969***
2. *UNIX was originally written in assembly but it was later rewritten in what language? **C***
3. *What's a basic capability that's common to all shells?
Any of the capabilities listed on slide 10 are fine. There are other possibilities, too.*
4. *Consider the following command line and fill in the blank.
% fgrep out x.java
out and **x.java** are arguments for the **fgrep** command.*
5. *What does purple text on a slide mean?
It was added after handouts were printed.*
6. *Ideally, what percentage of the class will earn "A"s? **100%***

*EC ½ point: What was the too-slow OS that led to "Unics"? **Multics***
