QUIZ!

Use a full sheet of 8½x11" paper. (Half sheet? Half credit!)

Put **only your last name** in the **far upper left hand corner** of the paper, where a staple would hit it. (It helps when sorting quizzes!)

Mitchell

....

No need to write out questions.

Numbering responses may help you avoid overlooking a question; it's ok to go ahead and pre-number your sheet.

90 seconds; two questions.

Can everybody see this line?

1. On Thursday we discussed three <u>programming</u> paradigms in some detail. What were two of them? (Hint: **<u>Not</u>** functional or logic programming.)

2. Name one general, discipline-independent characteristic of paradigms, as defined by Kuhn.

Extra credit: Who founded the UA CS department and in what year?
