Position Title: Drupal Web Developer (Student)
Eligibility: Undergraduate/Graduate
Application Review Begins: April 24, 2015
Compensation: $11.00 - $14.00 per hour

Position Summary:
The Institute of the Environment seeks a self-motivated, mature, highly responsible student to perform the duties of Drupal Web Developer. Student must be available for at least 10 - 20 hours per week.

Job Duties:
Contribute to and support defined assignments under the direction and supervision of Web Designer/Developer staff and the Manager of Development and Information Technology. Student will contribute to simultaneous projects while maintaining attention to detail and work collaboratively to maintain, develop, and edit new and existing websites within the Drupal Content Management System.

Required Skills and Experience:
Experience with Drupal 7.
Proficient with XHTML, CSS and standards based web development.
Strong communication skills.
Ability to multitask while maintaining attention to detail.

Desired Experience:
Experience with responsive design within Drupal.
Experience with JavaScript or other scripting languages.
Experience with PHP 5 and MySQL.
Experience with Adobe Creative Suite Applications (Dreamweaver, Photoshop, InDesign, etc.).

Application Process:
Send your resume, a cover letter, and upcoming school schedule to Rey Granillo at reyg@email.arizona.edu. You can also apply through UA JobLink by searching for Job ID 772131.
