Web Master Wanted

Hello my business partner and I are in the process of starting up an Internet based business and we would like to find a reliable web designer to design our web page. This position will probably start at a few hours a week in our initial project, but hours will potentially increase as we continue to expand. The person we are looking for should have the following qualities:

* **Highly dependable**: We like to work at a fast pace; therefore, I will emphasize that we need an extremely dependable person who will be available on demand.

* **Web Master**: We will like a person who is familiar with JavaScript and Wordpress as well as other web design platforms. Task will include; creating squeeze pages, survey pages, sign up forms, setting up merchant accounts and much more.

* **Local**: We are looking for a person that is located in the greater Tucson area so that we are able to meet in person, in order to provide input on web design as well as any changes or modifications that might be required later on.

* **On demand**: We need a person who is reliable and will be available at anytime.

If you are interested in this position or will like more information please email us at reachme@abrahamcontreras.com. In your response please include the following: a short explanation of why you will be a good fit for the position, contact info, contact info of prior employers (to be used as reference), compensation expectations, as well some examples of prior work that we can review.

Thank you
