

Fabric. A cloth made by weaving or felting. The various names are derived from material, texture, fineness, mode of weaving, color, mode of coloring, surface-finishing, place of manufacture, etc.

"Each glossy cloth, and drape of mantle warm,
Receives th' impression; ev'ry airy woof,
Cheyney, and baize, and serge, and alepine,
Tammy, and crape, and the long countless list
Of woolen webs."

DYER, *The Fleece*, 1757.
